Description	

3) Open the file you want to print with Adobe Photo-Shop. If, opening the file, the incorporated color profie is recognized by Adobe a message will be opened, than behave like in the image 2; if the color profile isn't recognized you should select manually "assign working RGB: Adobe RGB 1998" Like in the image 2 bis. If the color profile is already setted the file will be opened.

4) From Photoshop open the printing settings of Epson serie B 300/500 and set the driver like in the image 3.
